David Taniar, Monash University, Australia

AIMS AND SCOPE

Mobile Multimedia refers to the multimedia information exchange over wireless networks or wireless Internet. The Journal of Mobile Multimedia (JMM) aims to provide a forum for the discussion and exchange of ideas and information by researchers, students, and professionals on the issues and challenges brought by the emerging multimedia technologies for mobile multimedia applications and services, and the control and management of such networks to support multimedia applications.

Subscription, change of address, single-copy orders should be addressed to Sales Department, River Publishers, Alsbjergvej 10, 9260 Gistrup, Denmark, or at email address: marina.gezha@riverpublishers.com. More information can be also obtained from the JMM web page at <http://www.rintonpress.com/journals/jmmnew/>
